## THIS MONTH'S *silver star*

WILLIE ARTHUR DAVID, JR.

Willie Arthur David, Jr. was born March 2, 1946 in Chattanooga, Tenn. and his mother insisted that he be called David — not little Willie or Jr. or any other nickname. He and his family moved to Cincinnati, Ohio in 1948. David grew up in the West End neighborhood and graduated from Robert A. Taft High School, where he played football. The greatest challenge that David had to overcome was when he broke his neck in high school due to an auto accident, and was completely paralyzed from the neck down. He spent 15 months at Drake Hospital in rehabilitation before he was able to walk out of the facility. He attended high school as a senior and graduated with his designated class. David enrolled in the University of Cincinnati, earning an Associate in industrial management and a B.S. in accounting. He joined Kappa Alpha Psi Fraternity. David attended the University of Phoenix, acquiring his Master's of Science in Computer Information Systems. David has one younger sister. He was married; he has two children, 14 grandchildren, and 10 great-grandchildren. He began his career at Baldwin Piano and Organ Co. as an accountant responsible for inventory control. While working at Baldwin, he got the chance to see a custom royal blue concert grand piano made for Liberace. David relocated to Dayton, Ohio to join NCR as a financial analyst, moving into software development and installation. As director of application installation and training, he traveled to several overseas locations. While in Amsterdam, he had the opportunity to visit Diamond Factory where he was able to select the stones and have a custom ring made on the spot. When NCR merged with AT&T, he was assigned the responsibility for ensuring that the two accounting systems could communicate with each other. The applications allowed the two companies to transfer funds without paying bank fees. This may have been his greatest work accomplishment. David was transferred to AT&T's headquarters in Morristown, N.J. as technical manager of financial accounting systems. David took an early retirement from AT&T at age 55 and moved back to Springboro, Ohio to be near family. If David could have done another job for just one day, it would have been a professional football player. If David could tell himself anything at 13, it would be, "Everything I need to know about being a successful adult, I learned at the playground." Life is made up of diversity; everybody gets a turn — no cutting; bullying is not tolerated; use imagination and you can go anywhere; be willing to get your hands dirty; be genuine, honest and open — lying catches up with you; and never walk away from a fight. David's favorite movie is "Avator" and if Hollywood made a movie about his life, he'd want Denzel Washington to play his part. The movie would be titled, "I Did It My Way." Most people do not know that actor Samuel L. Jackson is his cousin and that his nephew won the lightweight silver medal at the 2000 Sydney Olympic Games.

HOSPITALITY, EXCELLENCE, APPRECIATION, RESPECT, TEAMWORK

DANA was born in Middletown in 1959. She attended and graduated from Kings Mills High School. She has two brothers and one sister. Dana's favorite thing to do growing up was sitting on the front porch after dark. As strange as it may sound, Dana loved to unlace her father's shoes when he took them off. She said they shared lots of little moments like that. What would she tell herself at 13? "Slow down and stay young as long as you can." She also said, "Listen to your parents, they know best." Dana has one son and four grandchildren. She considers marrying her husband and the birth of her son her best adult memories. Dana has traveled to several places. The most fascinating place was Virginia Beach. The greatest influences in her life were her dad and her husband. The one thing most people do not know about Dana is that she is very shy. In contrast, if Hollywood made a movie about her life, the title would be "The Girl Who Talked Too Much." The leading role would go to her granddaughter, Natalie. If Dana could do another job for just one day, she would want to be a person who cured cancer. Dana said God is the one thing she could not live without. The greatest challenge she had to overcome was losing her husband. The most important innovation or change she has witnessed in her lifetime is the difference in someone after giving their life to God and being saved. Her definition of success is making it to Heaven. Dana's top three life highlights are when God saved her, her dad's hugs, and the birth of her grandchildren. Dana's favorite part of working at The Barrington is, "Walking in the door and seeing that whoever I look at is smiling at me." Where does she see herself in 5 years? Dana said, "That's a good question!"
