## THIS MONTH'S *silver star*

### GENE GRUSZEWSKI

Eugene "Gene" John Gruszewski was born on Oct. 16, 1935, in the Polish community of River West, part of the greater Milwaukee area.

Gene was the oldest of three children, helping to take care of his younger siblings. Gene grew up in a crowded apartment complex, home to four families with a shared bathroom and no hot water. Throughout his youth, Gene took advantage of playing from sunup to sundown; the entire neighborhood acting as his personal backyard. Gene attended Notre Dame High School where he enjoyed the annual dances and helped manage the local basketball team. During his summers, Gene obtained his first job working in the sod fields for a landscape company. During a local church dance, Gene locked eyes with Joan, the lovely young lady whom he would eventually marry. Ironically, they only lived a few blocks apart for several years and never met each other. Following his high school graduation, Gene began an apprenticeship for Allis-Chalmers where he would learn electrical work, including building and testing motors. He and Joan married during this time on May 4, 1957, and would have three lovely children together: Two girls and one boy. Gene eventually became a professional construction worker and thrived in the business for over 30 years. In their downtime, the blissful family took vacations all over the world, including scuba diving in the Caribbean and a three week adventure in China. Gene took up carpentry as a personal hobby and proceeded to design and build new furniture for his home, including cabinets and shelving units. Gene and Joan resided in a condo in Oak Creek for nearly 10 years before joining our Harbour Village family earlier this year. We're delighted in welcoming the energetic and loving couple to our growing community! Thank you Gene, for being the Silver Star for the month of October!
